

**STILLWELL PLAZA
SIGNAGE SPECIFICATIONS**
Chatham, IL

September 19, 2007

The following requirements shall be observed for the building signage:

- All signage specs shall be reviewed and approved in writing by the owner prior to fabrication / installation.
- Signage shall have channel cut illuminated individual letters on a continuous raceway. Raceway shall match the color of the substrate.
- Illuminated building signage color shall match Starbucks signage or shall be white letters.
- A single row of all uppercase letters up to 16" in height shall be allowed.
- A single row of letters (uppercase & lowercase) up to 18" in height shall be allowed.
- A maximum of two rows of lettering at 10" each shall be allowed.
- Company logos shall be allowed in equal proportion to the lettering. Logos may be multicolored internally illuminated can signs.
- Lettering may be of any approved lettering style.
- Panels (1'-10" high x 10'-0" wide) shall be provided on the Landlord provided pylon sign for each tenant. Letters shall be 12" maximum in height. Tenants proposed panel must be submitted for review and approval by the Landlord.
